

# elipson® | Chroma 400

## TURNTABLE

An elegant, easy-to-use  
and above all musical  
turntable.

The Elipson Chroma 400 is a belt-driven manual turntable with an elegant design offering a lacquered paint or satin wood finish. Benefiting from our latest electronic and mechanical technologies, it is assembled in France in our premises.

The Elipson Chroma 400 offers the characteristics that contributed to the success of the Omega models such as the OTT (Orbital Torsion Tonearm) tonearm in carbon, its digital processing system of the motor rotation. It is distinguished by a new axis system for an even more precise rotation, an improved drive motor with optimized damping, a graduated counterweight, as well as by the addition of a cue control lever for your comfort of use.

### TECHNICAL

#### Chassis

MDF PU painting or wood veneer

#### Plate

Pressed steel

#### Tonearm

Carbon

#### Cartridge

Ortofon OM10

#### Adapter

Aluminium

### COLOUR

- Black lacquered
- Oak
- Red lacquered
- Walnut
- White lacquered
